

Name: _____

Directions: Every week you are expected to read 60 minutes outside of school. This can be broken up into several nights or done all at once. The book or books that you read will need to be near your reading level. You will need to record the book you read, when you read it, and how long you read. Your parent/guardian will need to sign.

| Title | Date | Time | Parent Signature |

Total Time: _____

Math Log:

Students will need to practice their math facts for 15 minutes each week. They can be quizzed, practice writing their facts, use flashcards, create flashcards, or play war with flashcards or a regular deck of cards. If they use a regular deck of cards, to play war, they will need to flip to cards and then add, subtract, multiply, or divide those numbers. The answer will then be their number for the war game.

| Date | Time | How they practiced their math facts | Parent Signature |
